

## **COHESIVE INFORMATION SOLUTIONS ACHEIVES IBM TIVOLI “AAA” ACCREDITATION**

FOR IMMEDIATE RELEASE

KENNESAW, GA (August 11, 2008) – Cohesive Information Solutions has achieved IBM’s “AAA” Deployment Accreditation rating for Maximo® Enterprise Asset Management (EAM). This certificate of accreditation was issued by Michele Grieshaber, Director IBM Tivoli Channel Marketing in July 2008.

This accreditation enables customers to identify IBM Business Partners who have the highest standards in technical certification for delivering Tivoli/Maximo solutions.

“This AAA rating is a significant milestone for Cohesive and is confirmation of our ability to provide advanced deployment professionals for the Tivoli/Maximo EAM product suite. We see this as a key differentiator when selecting a partner to implement new or enhance existing Maximo environments.” says George Lowry, Cohesive President.

Cohesive Information Solutions, Inc, headquartered in Kennesaw, Georgia provides consulting services enabling organizations to achieve higher ROI from their assets and the software technology used to manage and maintain those assets. Cohesive professionals have been serving clients since 1990.
